Dear Sir / Madam

Mr Andrew Lee

I have know and worked along side Andrew since I first became involved with the Joint **HSE** / Local Authority / Industry Health & Safety Liaison Group on Window Cleaning Safety back in February 2001 in my capacity as representative of the **Local Government Association**.

Andrew contributed extensively to the range of Health & Safety Information Sheets we were writing on behalf of the **HSE** which included:-

- "**Safety in window cleaning using portable ladders**" www.hse.gov.uk/pubns/misc613.pdf
- "**Safety in window cleaning using suspended and powered access equipment**" www.hse.gov.uk/pubns/misc611.pdf
- "**Safety in window cleaning using rope access**"

all of which have recently been published as Health & Safety Information Sheets by the **HSE** - www.hse.gov.uk/press/2003/e03207.htm - (enclosed) and

- "**Safety in window cleaning using water-fed long pole systems**"

work on which is still "in progress".

I have always found Andrew able to integrate his considerable practical industry experience, including work on the translation of the Temporary Work At Height Directive into UK law, with a professional approach to occupational health & safety and he was and is a major contributor to the work of our Liaison Group.

Should you wish to discuss this matter further, then please do not hesitate to contact me; I am normally available Mondays to Fridays, 9.15 – 10.00 a.m. or 4.00 – 5.00 p.m., at the above address.

Yours faithfully,

Tony Macklin
Principal Environmental Health Officer
